PERSONAL PROJECTS

Cord-Editor

- Skills Utilized: Next.js, TypeScript, Socket.io, Node.js, Redis, Docker and Kafka.
- Real-time Collaboration: Developed a real-time code editor enabling simultaneous collaboration by multiple users on the same file.
- Interactive Communication: Integrated live chat functionality for seamless communication.
- Professional Networking: Implemented a connection system akin to LinkedIn, facilitating messaging and exploration of colleagues' work within the platform.

StudyUnkown

- Skills Utilized: MongoDB, Cloudinary, Express.js, React.js, Node.js and Razorpay.
- Course Management: Developed a comprehensive online platform using the MERN stack, empowering administrators to effortlessly upload, manage, and categorize courses.
- E-commerce Integration: Integrated Razorpay payment gateway to facilitate secure transactions.
- Client Experience: Implemented a user-friendly interface where clients can browse, purchase, and access courses, with an automated refund system ensuring refunds are processed within 7 working days.
